

# KIDHACK

## Personality.

With roots in early electronica, a rave promoter in the 90's, previous pirate radio owner and manager, KidHack brings a wealth of style and experience to today's electronica scene. Based in San Francisco, Kidhack has been pushing the bounds of his own style, mastering new sounds and dance beats. Well known in electro circles, KidHack has been turning heads in new spheres with forays into minimal techno, glitch hop, and dubstep. He has a passion for reading the dance floor and dropping crowd crazing beats. Fans describe his chill mixes as smooth and elegant, while heavier mixes have his signature aggressive, hyphy style.

## Collective.

KidHack teamed up with Mario Muse to create Future Universal, a San Francisco based collective of DJs and electronica artists. Featuring DJs from all over the world, Future Universal hosts and co-hosts some of San Francisco's largest dance events.
